

MADERO'S FORCE
ATTACKS JUAREZRebel General Loses Control
Over His Followers.

BULLETS FLY ACROSS LINE

Five Persons Are Killed on American Soil and at Least a Dozen Wounded. Thousands of People at El Paso Dotted Roof Tops or Lined the Banks of the River in Direct Line of Fire.

El Paso, Tex., May 9.—Insurrection in the ranks of General Madero's army and lust for the fight of which federal concessions apparently had deprived them caused a fierce attack on Juarez, which culminated in a careful retreat of the insurgents after a day of continuous skirmishing.

The 150 rebels who opened fire on the federalists not only captured some of the important outposts, but carried the fighting into Juarez. Lacking reinforcements they retired.

The casualties of the insurgents and federalists are not known, but five people on the American side of the line were killed and at least twelve wounded. Thousands of people in El Paso dotted roof tops or lined the river banks in direct line of the fire. Colonel Steever of the Fourth United States cavalry protested to both armies against the fire into American territory and it lessened considerably thereafter.

Nearly 1,000 American troops were massed on the border keeping crowds back and ready to respond to any orders from Washington.

Attempt to Arrange Armistice.

Couriers are galloping back and forth in an effort to arrange an armistice so that peace negotiations may go on. General Francisco I. Madero, Jr., is a sad and downhearted man. His efforts to prevent a general attack were successful, but only after he had been bombarded with conflicting stories as to the actual cause of the conflict.

General Madero thinks remarks attributed to Colonel Tambouret of the federal garrison in Juarez, taunting the insurgents, incensed them, and in a statement he regrets the occurrence.

The fight lasted until dark and furnished many a thrilling spectacle as well as continuous terror for many Americans living along the river bank. The total dead for the day's fighting, including insurgents and federalists, is estimated at near thirty. The wounded will number close to sixty.

It is rumored that an automobile party went to demand the surrender of Juarez from General Navarro. Should General Navarro refuse another attack is imminent. The insurgents, who, it was believed, had retreated from Juarez, are now said to be concealed in the city awaiting reinforcements.

The Diaz manifesto is gradually losing its effect and the insurgents are determined to fight. They believe they can take Juarez with ease as their advance guard has, it is reported, completely routed the federal outposts.

DIAZ WOULD SACRIFICE LIFE

Retirement Now Certain to Result in Anarchy, He Says.

Mexico City, May 9.—The manifesto of General Diaz, after relating at length the details of the reforms already in course of enactment or planned, the events leading up to the negotiations for peace and the appointment of a commissioner by the government, was in part as follows:

"The result of this private initiative was, as is known, an agreement for the suspension of hostilities concluded between the general in command of the federal forces at Ciudad Juarez and the rebel leaders of that region in order that during the truce there might be arranged the government might learn the proposed conditions or basis on which order might be restored."

Continuing, the manifesto asserts that if the demand of the revolutionists that the president should resign in the midst of the present difficulties were to be allowed it would expose the nation to all the contingencies and dangers of new elections.

Diaz declares it is his supreme duty to "bring back the country to the sway of law and order at any sacrifice, including that of his life, if necessary."

SEES UNINHABITED EARTH

Dr. Arrhenius of Stockholm Declares Life Will Disappear.

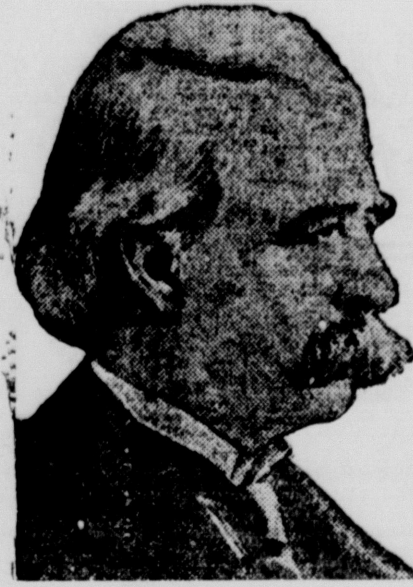

Moline, Ill., May 9.—That the earth will become uninhabitable like the planet Mars was the prophecy made by Dr. Svante Arrhenius of Stockholm in a lecture at Augustana college.

Dr. Arrhenius, who won the Nobel prize in chemistry in 1903 because of his electrolytic dissociation theory, is regarded as the world's greatest cosmogonist. He declared that two causes are operating to bring about the extinction of life on the earth—loss in heat generated by the sun and diminution of carbonic acid gas in the atmosphere.

Dr. Arrhenius estimates that carbonic acid gas will, in 10,000 years, cease to exist in the atmosphere in sufficient quantity to sustain vegetable life.

ELBERT H. HUBBARD.

Iowan Among the Republicans to Vote for Free List Bill.

WILSON SPEAKS AT DENVER

New Jersey Governor Guest of Chamber of Commerce.

Denver, May 9.—Governor Woodrow Wilson of New Jersey was the principal speaker at the banquet of the chamber of commerce. He said in part:

"We mean by every progressive measure to throw open the gates of opportunity to mankind. This was the original purpose of America. This is the only thing to which Americans can devote themselves with real confidence or enthusiasm. This is the only purpose that distinguishes us from the other nations of the world. Our whole ideal in the new program of progress is an ideal of restoration, of rejuvenation, of justice, wrought out in its working details. We mean to think of rights not as opportunities to be selfish, but as obligations to be just. We shall conceive business not as a means of obtaining, but as a means of serving, and we shall treat politics not as a game of advantage, but as a general, hopeful, confident, conscientious readjustment of the interests of individuals and of classes to one another."

STATE CLOSES IN
DEITZ MURDER CASE

Charge Against Leslie and His Mother May Be Dropped.

Hayward, Wis., May 9.—The prosecution rested its case against John F. Deitz, Mrs. Deitz and Leslie, charged with the killing of Oscar Harp, Oct. 8 last. Fifty-seven witnesses had been examined in six days.

Mrs. Deitz and Leslie may be released from the accusation of murder in the first degree. It is understood that with the state's case closed, except for rebuttal, a motion will be made for the dismissal of charges against Mr. Deitz and Leslie.

When District Attorney Sam J. Williams was asked if he would oppose such a motion, he said: "I will not discuss the matter ahead of time."

Former District Attorney J. C. Davis admitted some days ago that while he was the state's prosecutor the question of moving the dismissal of Mrs. Deitz was discussed in his office.

It is a fact that not a shred of evidence has been introduced by the prosecution through the trial to implicate either the wife or the son.

It has even been brought out that the shot that killed Harp could not have come from the cabin.

Angus Campbell, one of the deputies, told the jury he saw shots fired by two persons, one of whom seemed to be a woman in a blue calico dress. The state made no feature of this reference.

Radically different expressions of opinion regarding the case as far as it has gone were given by the prosecution and defense after adjournment.

"A mountain of evidence" was the expression used by District Attorney Williams in describing the state's case. "Doctored evidence; pretty slick work," said Deitz.

The Poor Victim.

Philanthropic Old Lady—But I gave you sixpence yesterday on condition that you were not to spend it in drink, and I can distinctly smell liquor on you. Deadhouse Dan—Lady, I am the victim of cruel circumstances. I found a bottle containin' wot appeared ter me ter be worter. Wot was my 'orror, lady, to find arter drinkin' of it all that it were whisky!—Sydney Bulletin.

Rain Proves Godsend.

Walker, Minn., May 9.—A light rainfall was of immense good to this section of the country, both for the crops and to quench the forest fires. All fires were quenched and the sky is again free from smoke. Hundreds of cords of wood have been lost by the fires this spring.

SAYS PACT WILL
HELP FARMERS

President Discusses Agreement With Rural Callers.

PROSPERITY ABOVE POLITICS

Twenty-five Members of the National Grange Visit White House to Protest Against Trade Arrangement With Canada—President Taft Reiterates His Belief Farmers Will Greatly Benefit by the Agreement.

Washington, May 9.—Placing prosperity above politics President Taft told farmers who called on him to object to the passage of the Canadian reciprocity treaty that it wouldn't hurt them a little bit—and even if it should it could be repealed by any congress as soon as the harmful effects were shown. To twenty-five members of the national grange the president said he wasn't playing for votes and if the passage would alienate Republican farmers of Minnesota and other border states he really couldn't help it—he was convinced the treaty would be a good thing for the country and he was going to stand by his guns.

N. P. Hull, spokesman for the farmers, argued that reciprocity means less money for wheat and other products—"a halt in the improvement of our homes and the education of our children."

"In the past the farmers of the border states have been the backbone of protection," he said. "You could count on these people every time. No past president commanded the confidence of the farm people more than you, and I ask you if you do not think we will suffer if we are put on a free trade basis."

"I have no disposition," said the president, "to interfere with the prosperity of those who make up the bone and sinew of the nation—the farmers—and I am convinced that in no way am I interfering with it. I believe that after reciprocity has been given one year's trial no side will think of interfering with it."

"I believe this treaty to be the best thing for the country—farmers, merchants, laboring men and all—because I believe it is contrary to nature, it is flying in the face of Providence, to put an artificial tariff wall between this country and Canada. If we take down that wall we will sell more products to Canada than she will sell to us. When you, gentlemen, come to see the result I believe you will admit that you have been wrong in your fears and that I have been right."

GENERAL ELECTION LIKELY

Laurier May Appeal to Country on Reciprocity.

Ottawa, Ont., May 9.—There will be a general election in Canada before Christmas if the opposition clings to its avowed intention of obstructing reciprocity after the parliamentary adjournment is ended, according to a high government official.

The great stumbling blocks in the way of an election now are the enforced absence of Sir Wilfrid Laurier at the coronation and the fact that the Canadian West will be underrepresented in parliament until there has been a redistribution of electoral divisions, which cannot be made until the census has been completed. These figures will be available in October. If the opposition then is still obstructing reciprocity it is said a redistribution bill will be given precedence over reciprocity and an election will follow.

IN FAVOR OF FREE RAW WOOL

New York and New Jersey Democrats in Congress Caucus.

Washington, May 9.—Unequivocal declaration in favor of placing raw wool on the free list in the revised wool schedule of the tariff and the consequent material strengthening of the position of that element of the majority party in the house which favors free raw wool were the net results of caucuses held by the Democratic representatives in the New York and New Jersey delegations. The Ohio and Massachusetts Democratic representatives will caucus and other states are expected to meet soon to outline their attitude. Interest in the Democratic program has been greatly stimulated.

Burns Going to Los Angeles.

New York, May 9.—Detective William J. Burns has left here for Los Angeles to arrange for the presentation of evidence against John J. McNamara and his brother, James B. McNamara, accused of dynamiting the Times building.

Perished in Forest Fire.

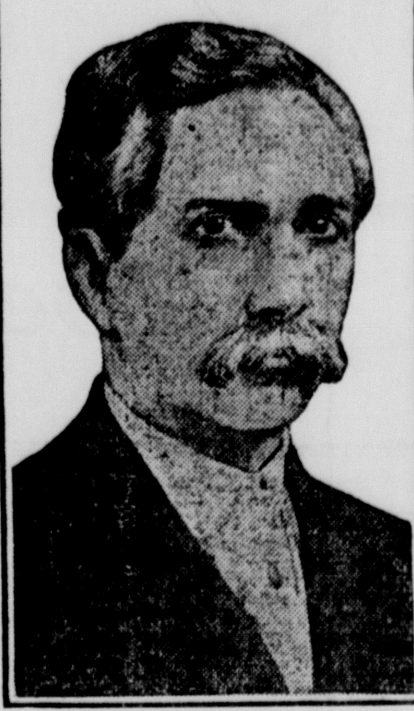

Duluth, May 9.—The charred remains of Kitto Mikalla, a bachelor farmer, residing in the Mud Hen district, near Eveleth, was found in the burned building on his place. A forest fire swept over his place and it is presumed that he died fighting it. Mikalla was forty-seven years of age and was well to do.

Famous Showman Dead.

Chicago, May 9.—Lewis M. Hedges, one of the most widely known of the "old time" showmen and for years the manager for P. T. Barnum, is dead at his home here.

JOSEPH STEWART.

Assistant Postmaster General Opposes Clerks Organizing.

STEWART SUMS UP CASE

Declares Strike of Mail Clerks Would Be Very Serious.

Washington, May 9.—The postoffice department campaign against labor unions of its employees was summed up before the house committee on reform in the civil service by Assistant Postmaster General Stewart. Mr. Stewart gave the department's theory of the railway mail clerks' obligations to the government, characterized the dissatisfaction among them as limited, told why unions would not be desirable, reviewed the demands of the clerks and spoke of the department's activity in bettering the postal service.

Although there is no statute preventing a strike by the clerks, according to the admission of Mr. Stewart, he expressed the opinion that the situation created by a strike would be a far more serious one for the railway mail service than the stoppage of a mail train, which is prohibited by statute.

"If there is any particular piece of literature with which Champ Clark is getting reasonably familiar it is that remark made away back in 1894 about tearing down the custom houses. Every Republican desiring to make a hit rings in that old speech. It is getting to be as familiar to Clark as anything he ever uttered."

Well Satisfied.

Utmost satisfaction is expressed by the progressive Republicans over the advance which is being made toward their policies. Circulars and statements issued from time to time show that the people are making many advances in different states toward the initiative and referendum, the direct election of all officers and of those advanced doctrines which were derided as Utopian a few years ago.

Senator Bourne, chairman of the progressive Republicans, is most optimistic over the success thus far attained. In the press notices which are issued it is observed that progressive Democracy is also given prominence. "There are no party differences in this great movement," declares Bourne.

More Annexation Talk.

Congressman Prince of Illinois in a speech denouncing Canadian reciprocity declared that Champ Clark was right when he said it meant ultimate annexation. It is true that officials on both sides of the line rush in and assert that annexation is not intended, but the people are thinking a great deal about it. Those who have seen the hundreds and thousands of Americans in Canada know that they would be willing to see the peaceful annexation of Canada, or at least the western portion.

If the boundary line is ever changed it will not be fifty-four forty, but the line which may be claimed as a part of Peary's discovery.

Locating a Fault.

Congressman Sims was making a speech, and Mann of Illinois interrupted him. "I am within twenty feet of the gentleman and cannot hear him," said Mann, who wanted to show that the house was already too large. "I cannot talk any louder," said the Tennesseean.

"I knew it. The fault is in the size of the house," shouted Mann. "I knew it was not the fault of the size of my mouth," shouted back Sims, and those who heard the colloquy thought Mann had proved his point.

Friendly With Insurgents.

Those who expected that Uncle Joe Cannon would come down from the speaker's chair and tear into the insurgents who were so severe on him much disappointed. Beyond asking "What is that pinhead?" when a new insurgent voted against the caucus nominee for minority leader he has been as suave as possible to the insurgents. He gets into the debates with them and often is found supporting them and their arguments.

Many insurgents found themselves on the same side with Uncle Joe during the consideration of different measures which have passed. Perhaps upon a closer view of each other these warring members may find they are not as bad as each believed the other.

Burger Is Not Lost.

Congressman Berger of Wisconsin, the only really pronounced Socialist that has been elected to congress, is not overshadowed by the fact that he is a minority of one. He can introduce resolutions, and they are generally sensationally enough to cause comment, although it has been determined to allow all of them to sleep quietly in the committee. Berger will make a speech some day which may give him still more notoriety.

Ten Million Rubles For Schools.

In voting to make primary education compulsory the Russian дума has allotted 10,000,000 rubles to schools.

TO TAKE TIME
ON RECIPROCITY

Senate Will Not Hurry Consideration of Measure.

SEE CHANGE OF SENTIMENT.

Opponents of the Bill Are Providing Material For Debate—Indications Are That Extra Session Will Last Into July—Progressive Republicans Satisfied With Their Progress.

By ARTHUR W. DUNN.

Washington, May 9.—[Special.]—As the senate intends to take its time to consider the Canadian reciprocity bill it may be quite awhile before we get into an active tariff debate in that body. Of course there is nothing to prevent any senator from making a speech on reciprocity. Several senators talked on the reciprocity bill in the last congress while it was still in committee. They can do the same thing this season. But, even so, it will not shorten the debate.

The delay which has already occurred and the prospects of further delay in the senate indicate that the session will last well into July. One reason for holding the bill so long in committee is the fact that a majority of that committee is opposed to the bill, or, at least, that is the way they have been counted. The longer they give to hearings the more material the opponents will have to delay the bill in the senate.

That is the only theory to account for the delay, although there are indications that the opponents of the bill believe that it is becoming more unpopular throughout the country.

Familiar to Champ.

If there is any particular piece of literature with which Champ Clark is getting reasonably familiar it is that remark made away back in 1894 about tearing down the custom houses. Every Republican desiring to make a hit rings in that old speech. It is getting to be as familiar to Clark as anything he ever uttered."

Well Satisfied.

Utmost satisfaction is expressed by the progressive Republicans over the advance which is being made toward their policies. Circulars and statements issued from time to time show that the people are making many advances in different states toward the initiative and referendum, the direct election of all officers and of those advanced doctrines which were derided as Utopian a few years ago.

MOSQUE OF OMAR.

Where Explorers Are Said to Have Stolen Jewish Relics.

INQUIRY ON AT JERUSALEM

Turkish Officials Probe Report That Relics Were Found.

London, May 9.—High Turkish officials are on the way to Jerusalem to inquire into the report that English excavators desecrated the mosque of Omar in their search for sacred Jewish relics on the site of Solomon's temple.

The explorers are said to have carried away the tables of law, the ark of the covenant and other priceless antiques.

There is no doubt that the promoters hoped to discover the ark of the covenant and the seven branched candlestick, but a Constantinople dispatch says it is believed they really found Solomon's crown, his sword, his ring and an ancient manuscript of the Bible.

Twenty-four Republicans Join Democrats in Its Favor.

DECISIVE VOTE OF 236 TO 109

Minority Leaders Offer Eighty-three Amendments to Measure Removing the Tariff From Agricultural Implements, Meats and Many Other Articles, but Fail to Secure the Adoption of Any of Them—Republican Fight Develops Into Filibuster.

Washington, May 9.—Nine hours of continuous pounding at the hands of the Republican minority of the house of representatives failed to make a single change in the first Democratic tariff bill, that placing on the free list agricultural implements, meats and many other articles. The bill passed the house by a vote of 236 to 109, the Democrats voting solidly and mustering twenty-four Republicans with them.

Minority Leader Mann threw amendment after amendment into the debate, ranging all the way from free rice to free lead and pig iron; but those that were not ruled out of order were cheerfully voted down by an almost solid Democratic vote.

The Republicans who voted for the measure were Representatives Anderson, Davis, Lindbergh, Miller, Volstead and Steenerson of Minnesota; Anthony, Jackson, Madison, Murdock of Kansas; Hanna and Helgeson of North Dakota; Lenroot, Kopp, Morse, Nelson of Wisconsin; La Follette and Warburton of Washington; Lafferty of Oregon; Kemp of California; Hubbard of Iowa; Morgan of Oklahoma; Norris of Nebraska and Roberts of Nevada.

The Republican fight began with an attempt to make free admission of merchandise apply only to imports from countries that admit American products free.

Minority Denounces Majority.

This was followed by efforts to have incorporated in the bill provisions that would force the other countries to give up their discriminations against American meats, live cattle and flour, and to include provisions aimed at countries that impose restrictions on the export of potash and pulp wood. All these amendments were thrown out as not permissible under the house rules. Republican leaders roundly denounced the Democrats for denying freedom of debate and amendment.

Former Speaker Cannon declared that never in the history of congress had the right of representation on the floor of the house been so limited.

After four or five hours the Republican fight took on the complexion of a filibuster. Once denied a vote by the chairman Mr. Mann intimated the bill would not pass in a hurry. Following that Republicans repeatedly demanded rising votes; but in the end Mr. Mann made no attempt to delay the final vote on the bill. In all the Republican leaders offered eighty-three amendments.

"This does not complete our tariff legislation," said Mr. Underwood. "We introduced this bill to give the farmers cheaper agricultural implements and the city dwellers cheaper meats and bread. We could not go beyond that without endangering the revenues. We intend to take up, in proper order, all tariff rates and to adjust them all."

MINORITY SHOWS ACTIVITY

Effort to Expedite Legislation in the Senate.

Washington, May 9.—There were evidences in the senate of an effort on the part of the minority at least, to expedite legislation. Senator Martin of Virginia, the new leader of the minority, called on Senator La Follette, chairman of the committee on census, to explain how soon the senate might expect action upon the reapportionment bill, which came over from the house about two weeks ago and has been quietly sleeping in the senate census committee.

Senator La Follette replied that he hoped to call his committee together very soon

MADERO'S FORCE
ATTACKS JUAREZRebel General Loses Control
Over His Followers.

BULLETS FLY ACROSS LINE

Five Persons Are Killed on American
Soil and at Least a Dozen Wounded.
Thousands of People at El Paso
Dotted Roof Tops or Lined the
Banks of the River in Direct Line
of Fire.El Paso, Tex., May 9.—Insurrection
in the ranks of General Madero's
army and lust for the fight of which
federal concessions apparently had de-
prived them caused a fierce attack on
Juarez, which culminated in a careful
retreat of the insurgents after a day
of continuous skirmishing.The 150 rebels who opened fire on
the federalists not only captured some
of the important outposts, but carried
the fighting into Juarez. Lacking re-
inforcements they retired.The casualties of the insurgents
and federalists are not known, but five
people on the American side of the
line were killed and at least twelve
wounded. Thousands of people in El
Paso dotted roof tops or lined the
river banks in direct line of the fire.
Colonel Steever of the Fourth United
States cavalry protested to both
armies against the fire into American
territory and it lessened considerably
thereafter.Nearly 1,000 American troops were
massed on the border keeping crowds
back and ready to respond to any or-
ders from Washington.

Attempt to Arrange Armistice.

Couriers are galloping back and
forth in an effort to arrange an armis-
tice so that peace negotiations may go
on. General Francisco I. Madero, Jr.,
is a sad and downhearted man. His
efforts to prevent a general attack
were successful, but only after he had
been bombarded with conflicting
stories as to the actual cause of the
conflict.General Madero thinks remarks at-
tributed to Colonel Tambouret of the
federal garrison in Juarez, taunting
the insurgents, incensed them, and in
a statement he regrets the occurrence.The fight lasted until dark and fur-
nished many a thrilling spectacle as
well as continuous terror for many
Americans living along the river bank.
The total dead for the day's fight-
ing, including insurgents and federal-
ists, is estimated at near thirty. The
wounded will number close to sixty.It is rumored that an automobile
party went to demand the surrender
of Juarez from General Navarro.
Should General Navarro refuse another
attack is imminent. The insurrec-
tion, who, it was believed, had retreat-
ed from Juarez, are now said to be
concealed in the city awaiting rein-
forcements.The Diaz manifesto is gradually los-
ing its effect and the insurgents are
determined to fight. They believe they
can take Juarez with ease as their ad-
vance guard has, it is reported, com-
pletely routed the federal outposts.

DIAZ WOULD SACRIFICE LIFE

Retirement Now Certain to Result in
Anarchy, He Says.Mexico City, May 9.—The manifesto
of General Diaz, after relating at
length the details of the reforms al-
ready in course of enactment or pro-
posed, the events leading up to the
negotiations for peace and the ap-
pointment of a commissioner by the
government, was in part as follows:"The result of this private initiative
was, as is known, an agreement for
the suspension of hostilities concluded
between the general in command of
the federal forces at Ciudad Juarez
and the rebel leaders of that region
in order that during the truce those ar-
ranged the government might learn
the proposed conditions or basis on
which order might be restored."Continuing, the manifesto asserts
that if the demand of the revolution-
ists that the president should resign
in the midst of the present difficulties
were to be allowed it would expose
the nation to all the contingencies
and dangers of new elections.Diaz declares it is his supreme duty
to "bring back the country to the
way of law and order at any sacri-
fice, including that of his life, if neces-
sary."

PROSPERITY ABOVE POLITICS

Twenty-five Members of the National
Grange Visit White House to Pro-
test Against Trade Arrangement
With Canada—President Taft Re-
iterates His Belief Farmers Will
Greatly Benefit by the Agreement.Washington, May 9.—Placing pros-
perity above politics President Taft
told farmers who called on him to ob-
ject to the passage of the Canadian
reciprocity treaty that it wouldn't hurt
them a little bit—and even if it should
it could be repealed by any congress
as soon as the harmful effects were
shown. To twenty-five members of
the national grange the president said
he wasn't playing for votes and if the
passage would alienate Republican
farmers of Minnesota and other bor-
der states he really couldn't help it—
he was convinced the treaty would be
a good thing for the country and he
was going to stand by his guns.N. P. Hull, spokesman for the farm-
ers, argued that reciprocity means
less money for wheat and other
products—"a halt in the improvement
of our homes and the education of our
children.""In the past the farmers of the bor-
der states have been the backbone of
protection," he said. "You could count
on these people every time. No past
president commanded the confidence
of the farm people more than you, and
I ask you if you do not think we will
suffer if we are put on a free trade
basis.""I have no disposition," said the
president, "to interfere with the pros-
perity of those who make up the bone
and sinew of the nation—the farmers
—and I am convinced that in no way
am I interfering with it. I believe
that after reciprocity has been given
one year's trial no side will think of
interfering with it.""I believe this treaty to be the best
thing for the country—farmers, mer-
chants, laboring men and all—because
I believe it is contrary to nature, it is
lying in the face of Providence, to put
an artificial tariff wall between this
country and Canada. If we take down
that wall we will sell more products
to Canada than she will sell to us.
When you, gentlemen, come to see the
result I believe you will admit that
you have been wrong in your fears
and that I have been right."

GENERAL ELECTION LIKELY

Laurier May Appeal to Country on
Reciprocity.Ottawa, Ont., May 9.—There will be
a general election in Canada before
Christmas if the opposition clings to
its avowed intention of obstructing
reciprocity after the parliamentary
adjournment is ended, according to a
high government official.The great stumbling blocks in the
way of an election now are the en-
forced absence of Sir Wilfrid Laurier
at the coronation and the fact that the
Canadian West will be under-repre-
sented in parliament until there has
been a redistribution of electoral di-
visions, which cannot be made until
the census has been completed. These
figures will be available in October.
If the opposition then is still obstruc-
ting reciprocity it is said a redistribu-
tion bill will be given precedence over
reciprocity and an election will fol-
low.

IN FAVOR OF FREE RAW WOOL

New York and New Jersey Democrats
in Congress Cautious.Washington, May 9.—Unequivocal
declaration in favor of placing raw
wool on the free list in the revised
wool schedule of the tariff and the
consequent material strengthening of
the position of that element of the ma-
jority party in the house which favors
free raw wool were the net results of
causes held by the Democratic rep-
resentatives in the New York and
New Jersey delegations. The Ohio
and Massachusetts Democratic rep-
resentatives will caucus and other states
are expected to meet soon to outline
their attitude. Interest in the Demo-
cratic program has been greatly stimu-
lated.

Burns Going to Los Angeles.

New York, May 9.—Detective Will-
iam J. Burns has left here for Los
Angeles to arrange for the presenta-
tion of evidence against John J. Mc-
Namara and his brother, James B.
McNamara, accused of dynamiting the
Times building.

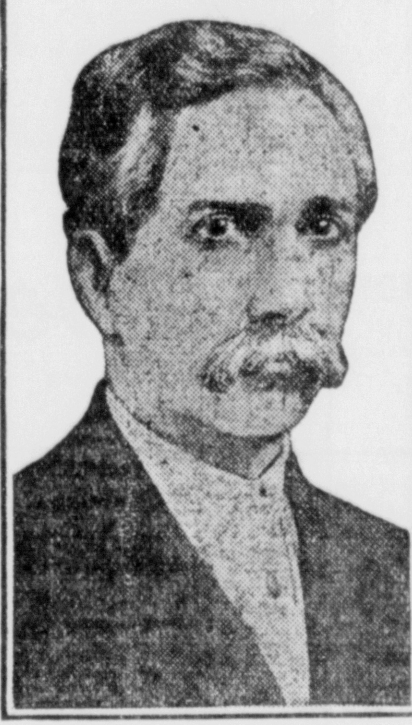

Perished in Forest Fire.

Duluth, May 9.—The charred re-
mains of Kitto Mikalla, a bachelor
farmer, residing in the Mud Hen dis-
trict, near Evelev, was found in the
burned building on his place. A forest
fire swept over his place and it is
presumed that he died fighting it.
Mikalla was forty-seven years of age
and was well to do.

Famous Showman Dead.

Chicago, May 9.—Lewis M. Hedges,
one of the most widely known of the
"old time" showmen and for years the
manager for P. T. Barnum, is dead at
his home here.

JOSEPH STEWART.

Assistant Postmaster General
Opposes Clerks Organizing.

STEWART SUMS UP CASE

Declares Strike of Mail Clerks Would
Be Very Serious.Washington, May 9.—The postoffice
department campaign against labor
unions of its employees was summed
up before the house committee on re-
form in the civil service by Assistant
Postmaster General Stewart. Mr.
Stewart gave the department's theory
of the railway mail clerks' obligations
to the government, characterized the
dissatisfaction among them as limited,
told why unions would not be desir-
able, reviewed the demands of the
clerks and spoke of the department's
activity in bettering the postal serv-
ice.Although there is no statute pre-
venting a strike by the clerks, accord-
ing to the admission of Mr. Stewart,
he expressed the opinion that the situ-
ation created by a strike would be a
far more serious one for the railway
mail service than the stoppage of a
mail train, which is prohibited by
statute.HIGH WIND FANS
CANADIAN FIRESMany Small Towns Are in Dan-
ger of Destruction.Winnipeg, May 9.—Swept by a high
wind forest fires are raging in North-
ern Manitoba and Saskatchewan and
along the international boundary,
which threaten a repetition of last
fall's disasters.Many small towns and large saw
mills along the Canadian Northern
railway are in danger and hundreds
of men are fighting the flames. The
Canadian Northern has several relief
trains ready for operation and has
sent a train to Kelowna, which was in
danger. Fires are burning fiercely at
Svan River, Dauphin and at the foot
of Riding mountains. Many settlers
have lost everything, bridges have
been destroyed and miles of telegraph
poles have been burned.The situation in the Prince Albert
district is alarming. The fires did con-
siderable damage on the outskirts of
Hudson Bay Junction and Wakefield.
Chief Wagner and part of the Prince
Albert fire brigade are still fighting
the flames at Big River.Fires are again threatening the
Rainy river country and unless rain
comes soon large quantities of timber
and logs cut during the winter will be
destroyed. On the Duluth branch of
the Canadian Northern between
Erickson and Virginia fires have
been raging with disastrous effect, and
it was with difficulty that the village
of Ray was saved.

ROADS ASK THREE-CENT FARE

Injunction Suits to Be Started by Six
Minnesota Lines.St. Paul, May 9.—Papers are being
prepared for injunction suits in the
federal court by the stockholders of
the six roads in the state not affected
in the previous rate cases.This action is being taken to put all
the roads of the state in the same po-
sition as are the Great Northern,
Northern Pacific and Minneapolis and
St. Louis on the 2-cent rate. These
three roads have been exempted by
Judge Willard's decision from putting
the lower rates into effect and July 1
the 3-cent-a-mile rate will be restored
by these roads.These suits for temporary injunction
will be filed with the federal court in
a few days.

RUSSIA HAS MANY SUICIDES

Various Causes Assigned for Popu-
larity of Self-Destruction.St. Petersburg, May 9.—Suicides in
St. Petersburg have increased 253 per
cent in the last five years, until now
there are eleven suicides a year for
each 10,000 population.The institute established to investi-
gate the cause of increasing suicides
reported that 28 per cent of the suc-
cides are due to destitution, 8 per
cent of alcoholism and unhappy love
affairs and 7 per cent to marital trou-
bles.TO TAKE TIME
ON RECIPROCITYSenate Will Not Hurry Consid-
eration of Measure.

SEE CHANGE OF SENTIMENT.

Opponents of the Bill Are Providing
Material For Debate—Indications Are
That Extra Session Will Last Into
July—Progressive Republicans Satis-
fied With Their Progress.

By ARTHUR W. DUNN.

Washington, May 9.—[Special.]—As
the senate intends to take its time to
consider the Canadian reciprocity bill
it may be quite awhile before we get
into an active tariff debate in that
body. Of course there is nothing to
prevent any senator from making a
speech on reciprocity. Several sena-
tors talked on the reciprocity bill in
the last congress while it was still in
committee. They can do the same
thing this season. But, even so, it will
not shorten the debate.The delay which has already oc-
curred and the prospects of further
delay in the senate indicate that the
session will last well into July. One
reason for holding the bill so long in
committee is the fact that a majority
of that committee is opposed to the
bill, or, at least, that is the way they
have been counted. The longer they
give to hearings the more material the
opponents will have to delay the bill
in the senate.That is the only theory to account
for the delay, although there are in-
dications that the opponents of the bill
believe that it is becoming more un-
popular throughout the country.Familiar to Champ.
If there is any particular piece of
literature with which Champ Clark is
getting reasonably familiar it is that
remark made away back in 1894 about
tearing down the custom houses. Every
Republican desiring to make a hit
rings in that old speech. It is getting
to be as familiar to Clark as anything
he ever uttered.Well Satisfied.
Utmost satisfaction is expressed by
the progressive Republicans over the
advance which is being made toward
their policies. Circulars and state-
ments issued from time to time show
that the people are making many ad-
vances in different states toward the
initiative and referendum, the direct
election of all officers and of those ad-
vanced theories which were derided
as Utopian a few years ago.Senator Bourne, chairman of the pro-
gressive Republicans, is most optimis-
tic over the success thus far attained.
In the press notices which are issued
it is observed that progressive Demo-
crats is also given prominence. "There
are no party differences in this great
movement," declares Bourne.More Annexation Talk.
Congressman Prince of Illinois in a
speech denouncing Canadian reciprocity
declared that Champ Clark was
right when he said it meant ultimate
annexation. It is true that officials on
both sides of the line rush in and as-
sert that annexation is not intended,
but the people are thinking a great
deal about it. Those who have seen
the hundreds and thousands of Amer-
icans in Canada know that they would
be willing to see the peaceful annexa-
tion of Canada, or at least the west-
ern portion.If the boundary line is ever changed
it will not be fifty-four forty, but the
line which may be claimed as a part
of Peary's discovery.

Locating a Fault.

Congressman Sims was making a
speech, and Mann of Illinois inter-
rupted him. "I am within twenty feet
of the gentleman and cannot hear him,"
said Mann, who wanted to show that
the house was already too large."I cannot talk any louder," said the
Tennesseean."I knew it. The fault is in the size
of the house," shouted Mann."I knew it was not the fault of the
size of my mouth," shouted back Sims,
and those who heard the colloquy
thought Mann had proved his point.

Friendly With Insurgents.

Those who expected that Uncle Joe
Cannon would come down from the
speaker's chair and tear into the in-
surgents who were so severe on him
in the last congress have been very
much disappointed. Beyond asking
"Who is that pinhead?" when a new
insurgent voted against the caucus
nominee for minority leader he has
been as suave as possible to the in-
surgents. He gets into the debates
with them and often is found support-
ing them and their arguments.Many insurgents found themselves
on the same side with Uncle Joe dur-
ing the consideration of different mea-
sures which have passed. Perhaps
upon a closer view of each other these
warring members may find they are
not as bad as each believed the other.

Burger Is Not Lost.

Congressman Berger of Wisconsin,
the only really pronounced Socialist
that has been elected to congress, is
not overshadowed by the fact that he
is a minority of one. He can intro-
duce resolutions, and they are gener-
ally sensate enough to cause com-
ment, although it has been determined
to allow all of them to sleep quietly
in the committee. Berger will make a
speech some day which may give him
still more notoriety.

Ten Million Rubles For Schools.

In voting to make primary education
compulsory the Russian duma has al-
lotted 10,000,000 rubles to schools.HOUSE APPROVES
FREE LIST BILLTwenty-four Republicans Join
Democrats in Its Favor.

DECISIVE VOTE OF 236 TO 109

Minority Leaders Offer Eighty-three
Amendments to Measure Removing
the Tariff From Agricultural Imple-
ments, Meats and Many Other Arti-
cles, but Fail to Secure the Adop-
tion of Any of Them—Republican
Fight Develops into Filibuster.Washington, May 9.—Nine hours of
continuous pounding at the hands of
the Republican minority of the house
of representatives failed to make a
single change in the first Democratic
tariff bill, that placing on the free
list agricultural implements, meats
and many other articles. The bill
passed the house by a vote of 236 to
109, the Democrats voting solidly and
mustered twenty-four Republicans
with them.Minority Leader Mann threw amend-
ment after amendment into the de-
bate, ranging all the way from free
rice to free lead and pig iron; but
those that were not ruled out of order
were cheerfully voted down by an al-
most solid Democratic vote.The Republicans who voted for the
measure were Representatives Ander-
son, Davis, Lindbergh, Miller, Vol-
stead and Steenerson of Minnesota;
Anthony, Jackson, Madison, Murdock
of Kansas; Hanna and Helgeson of
North Dakota; Lenroot, Kopp, Morse,
Nelson of Wisconsin; La Follette and
Warburton of Washington; LaFerty
of Oregon; Kemp of California; Hub-
bard of Iowa; Morgan of Oklahoma;
Norris of Nebraska and Roberts of
Nevada.The Republican fight began with an
attempt to make free admission of
merchandise apply only to imports
from countries that admit American
products free.

Minority Denounces Majority.

This was followed by efforts to have
incorporated in the bill provisions
that would force the other countries
to give up their discriminations
against American meats, live cattle
and flour, and to include provisions
aimed at countries that impose re-
strictions on the export of potash and
pulp wood. All these amendments
were thrown out as not permissible
under the house rules. Republican
leaders roundly denounced the Demo-
crats for denying freedom of debate
and amendment.Former Speaker Cannon declared
that never in the history of congress
had the right of representation on the
floor of the house been so limited.After four or five hours the Republi-
can fight took on the complexion of
a filibuster. Once denied a vote by
the chairman Mr. Mann intimated the
bill would not pass in a hurry. Follow-
ing that Republicans repeatedly de-
manded rising votes; but in the end
Mr. Mann made no attempt to delay
the final vote on the bill. In all the
Republican leaders offered eighty-
three amendments."This does not complete our tariff
legislation," said Mr. Underwood. "We
introduced this bill to give the farm-
ers cheaper agricultural implements
and the city dwellers cheaper meats
and bread. We could not go beyond
that without endangering the reve-
nues. We intend to take up, in proper
order, all tariff rates and to adjust
them all."

MINORITY SHOWS ACTIVITY

Effort to Expedite Legislation in the
Senate.Washington, May 9.—There were
evidences in the senate of an effort
on the part of the minority at least,
to expedite legislation. Senator Mar-
tin of Virginia, the new leader of the
minority, called on Senator La Fol-
lette, chairman of the committee on
census, to explain how soon the sen-
ate might expect action upon the res-
portionment bill, which came over
from the house about two weeks ago
and has been quietly sleeping in the
senate census committee.Senator La Follette replied that he
hoped to call his committee together
very soon and to give such consid-
eration to the bill as might be thought
wise.Scarcely had Senator La Follette
taken his seat after his explanations
when Senator Martin called on the
chairman of the committee on privi-
leges and elections to explain to the
senate how soon that committee would
take action on the bill that had come
over from the house requiring pub-
lication of campaign expenditures and
contributions before and after elec-
tions.Senator Dillingham, chairman of the
committee on privileges and elections,
replied that he expected to call a meet-
ing of his committee at an early date.

Her Awful Secret.

"Yes," said Little Binks, "Miss Payn-
ter is a handsome woman, but some-
times when I look at her she seems
to me like a woman who has a terri-
ble secret."

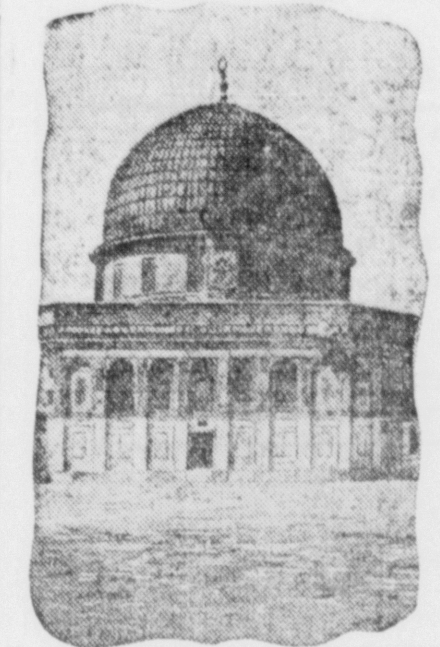

"She has," said Whibley.

"I was sure of it," said Little Binks.

"Have you any idea what it is?"

"Yes," said Whibley; "she's forty-
eight years old."—Harper's Weekly.

MOSQUE OF OMAR.

Where Explorers Are Said to
Have Stolen Jewish Relics.

INQUIRY ON AT JERUSALEM

Turkish Officials Probe Report That
Relics Were Found.London, May 9.—High Turkish offi-
cials are on the way to Jerusalem to
inquire into the report that English
excavators desecrated the mosque of
Omar in their search for sacred Jew-
ish relics on the site of Solomon's tem-
ple.The explorers are said to have car-
ried away the tables of law, the ark
of the covenant and other priceless
antiquities.There is no doubt that the pro-
motors hoped to discover the ark of
the covenant and the seven branched
candelstick, but a Constantinople dis-
patch says it is believed they really
found Solomon's crown, his sword, his
ring and an ancient manuscript of the
Bible.Knew His Geography.

TUESDAY, MAY 9, 1911

Street lights in the residence portion of Brainerd is something that would be appreciated by the people.

The sum of \$32,000 was pledged in less than five minutes at Helena for the purpose of carrying on the work of the Northwestern Development league which is to have its headquarters at St. Paul. Advertising the resources of the northwest is to be the principal feature.

Mike Dowling says the good roads of Renville county brought it a large share of the prosperity it is receiving, and the statement is not hard to believe. Good roads is an argument that can be used effectively with a man who is seeking a home either in the country or in the village.

An attempt is to be made in Minnesota to capture the delegation for LaFollett for president and the plans are already being laid by the lieutenants of the Wisconsin statesman. Without question some interesting political history will be the outcome of the next presidential campaign.

Rain is badly needed in this section of the country and unless it comes soon much damage will be done by forest fires which are starting up in various section and the agricultural sections will suffer. The drought of last year followed by another dry season will seriously affect the farming communities and the country at large.

Speaking of a man well known in this city the Superior Telegram says editorially: "Hon. B. M. Chipfield, of Fulton county, Ill., made a speech, mainly on the topic of popular government before the Illinois house of representatives the other day, which the Chicago papers are commenting editorially upon. As the speaker's father and mother were both preachers, it is not surprising that he has something to say."

The Duluth Record which last week started a boom for Congressman Lindbergh as United States senator to succeed Senator Knute Nelson is followed up by the twin city papers in the matter but according to them Senator Gunderson is to have the insurgent support if he will accept it and get into the fight for Senator Nelson's shoes two years hence. It is quite likely that Mr. Gunderson will think the matter over seriously before he accepts the offer.

Duluth will entertain the Northern Minnesota Development Association on June 1st and 2d, which will be the fourth convention of that association which was organized at Bemidji for the purpose of carrying on a campaign of education that the people seeking homes might take advantage of the opportunities offered by northern Minnesota. Many subjects of interest will be discussed and Duluth will outdo herself in entertaining the delegates who will visit that city. The program is not yet complete but will be made public soon, and it is said that the business meeting will not be the only interesting feature as the Duluth Commercial Club and the St. Louis County Club are arranging side trips on Lake Superior where an opportunity will be offered to inspect the great lake port, and the Jean-Duluth, G. G. Hartley Island Farm and other places of interest will be visited. The idea is to "Boost for Minnesota" and Duluth believes if the people of this great state become acquainted with what they have at the head of the great lakes it will be an incentive it will be an educational meeting in more sense than one and the delegate who misses this meeting will regret it.

Backache Means Dying Kidneys

A Remarkable Treatment That Saves the Kidneys. How You May Cure Yourself Quickly and Thoroughly.

With the progress of science comes one remarkable treatment for kidney diseases. It has been so thoroughly tested and its results have proven so revolutionary that a well-known firm in Michigan has undertaken its distribution into every part of the country. Those who suffer from kidney trouble and the diseases resulting from it will be pleased to know that every package of this treatment is thoroughly guaranteed. This should assure at last a positive cure to every sufferer.

Every man and woman should know that backache is usually a well-defined symptom of advancing kidney disease which may end fatally unless treated in time; that rheumatism and bladder trouble are caused from nothing more nor less than kidneys that do not filter the poison from the blood; that dropsy, Bright's disease, diabetes and bladder-stones are caused by bad kidneys.

Once they are made to work properly, these diseases should quickly disappear. This is done by the new treatment, Dr. Derby's Kidney Pills.

We urge everyone who has pain in the small of the back, profuse or scanty urination, pains in the bladder, cloudy or foul urine, not to fail to get a package today of Dr. Derby's Kidney Pills, and drop all other kidney treatments. Senator Stevenson, of Washington, writes from Olympia: "There is no question about the efficacy of Dr. Derby's Pure Kidney Pills in curing kidney and bladder trouble. I know whereof I speak."

Dr. Derby's Kidney Pills are now sold at all drug stores—25 and 50 cents, or direct from Derby Medicine Co., Eaton Rapids, Mich. If you would like to try them first, ask your druggist for a free sample package. Then buy a package; you will not regret it.

meet with Mrs. J. E. Anderson, 508 Fourth avenue, on Wednesday afternoon.

Mrs. C. O. Field, Miss Alma Field, of Mankato; Mrs. R. M. Sheets, Mrs. Charles J. Duffy, Mrs. Frost and Mrs. Arthur C. Weber went to Baxter today for an outing and also to visit Mrs. R. A. Cass.

William Bligh, the porter at the Ransford hotel who severely injured himself several weeks ago by a fall from the hotel's freight elevator, has recovered and is back again at work. He says the fall broke his ear drum.

John Larson is local agent for Stott Briquets, a new and very economical fuel. A car load has just arrived. Send in an order and try it. 158-tf

Mrs. Frederick Luken, Miss Alma Brown and Mrs. W. H. Bondy left this afternoon to attend the grand chapter, the state convention of the Eastern Star at Minneapolis. The opening session of the convention is being held today, will continue tomorrow and conclude on Thursday evening. Mr. Bondy accompanied Mrs. Bondy to the twin cities.

It Started The World

When the astounding claims were first made for Bucklen's Arnica Salve, but forty years of wonderful cures have proved them true, and everywhere it is now known as the best salve on earth for burns, boils, scalds, sores, cuts, bruises, sprains, swellings, eczema, chapped hands, fever sores and piles. Only 25c at all druggists.

Bits of the Philosophy of Life

The little buds just appearing on
the trees and shrubs will soon
develop and stop even the rays
of the sun—shield the tired and
thirsty from Old Sol's scorching
darts. Save the buds.

The pennies which we scatter and
waste in the Early Spring of Life
are Fortune's buds—care for them
they will one day protect us from heat,
thirst and perhaps hunger. Save them.

Interest Paid on

First National Bank
Brainerd, Minn.
Established 1881
Capital and Surplus
One Hundred Thousand Dollars

Speaking of a man well known in
this city the Superior Telegram says
editorially: "Hon. B. M. Chip-
field, of Fulton county, Ill., made a
speech, mainly on the topic of pop-
ular government before the Illinois
house of representatives the other
day, which the Chicago papers are
commenting editorially upon. As
the speaker's father and mother were
both preachers, it is not surprising
that he has something to say."

The Duluth Record which last
week started a boom for Congress-
man Lindbergh as United States sen-
ator to succeed Senator Knute Nel-
son is followed up by the twin city
papers in the matter but according
to them Senator Gunderson is to have
the insurgent support if he will ac-
cept it and get into the fight for Sen-
ator Nelson's shoes two years hence.
It is quite likely that Mr. Gunderson
will think the matter over seriously
before he accepts the offer.

Duluth will entertain the Northern
Minnesota Development Association
on June 1st and 2d, which will be
the fourth convention of that asso-
ciation which was organized at Be-
midji for the purpose of carrying on
a campaign of education that the
people seeking homes might take ad-
vantage of the opportunities offered
by northern Minnesota. Many sub-
jects of interest will be discussed and
Duluth will outdo herself in enter-
taining the delegates who will visit
that city. The program is not yet
complete but will be made public
soon, and it is said that the business
meeting will not be the only inter-
esting feature as the Duluth Commer-
cial Club and the St. Louis County
Club are arranging side trips on Lake
Superior where an opportunity will
be offered to inspect the great lake
port, and the Jean-Duluth, G. G.
Hartley Island Farm and other places
of interest will be visited. The idea
is to "Boost for Minnesota" and Du-
luth believes if the people of this
great state become acquainted with
what they have at the head of the
great lakes it will be an incentive
it will be an educational meeting in
more sense than one and the dele-
gate who misses this meeting will
regret it.

Backache Means
Dying Kidneys

A Remarkable Treatment That Saves
the Kidneys. How You May
Cure Yourself Quickly
and Thoroughly.

With the progress of science comes
one remarkable treatment for kidney
diseases. It has been so thoroughly
tested and its results have proven so
revolutionary that a well-known firm
in Michigan has undertaken its dis-
tribution into every part of the country.
Those who suffer from kidney trou-
ble and the diseases resulting from it
will be pleased to know that every
package of this treatment is thor-
oughly guaranteed. This should assure
at least a positive cure to every sufferer.

Every man and woman should know
that backache is usually a well-defined
symptom of advancing kidney disease
which may end fatally unless treated
in time; that rheumatism and bladder
trouble are caused from nothing more
nor less than kidneys that do not filter
the poison from the blood; that dropsy,
Bright's disease, diabetes and bladder-
stones are caused by bad kidneys.

Once they are made to work prop-
erly, these diseases should quickly dis-
appear.

This is done by the new treatment,
Dr. Derby's Kidney Pills.

We urge everyone who has pain in
the small of the back, profuse or
scanty urination, pains in the bladder,
cloudy or foul urine, not to fail to get
a package today of Dr. Derby's Kidney
Pills, and drop all other kidney treat-
ments. Senator Stevenson, of Washing-
ton, writes from Olympia: "There is
no question about the efficacy of Dr.
Derby's Pure Kidney Pills in curing
kidney and bladder trouble. I know
whereof I speak."

Dr. Derby's Kidney Pills are now sold
at all drug stores—25 and 50 cents, or
direct from Derby Medicine Co., Eaton
Rapids, Mich. If you would like to try
them first, ask your druggist for a free
sample package. Then buy a package;
you will not regret it.

MOTORCYCLE CLUB RUN

Six Members Take a Cross Country Trip Sunday to Nokay and Long Lakes

On Sunday six members of the Brainerd Motor Cycle Club took a cross country run from Brainerd to Nokay lake and thence to Long Lake and return. In the party were Geo. Fricker, J. Fricker, Joseph Brandt, Eli Stendahl, Wm. Lee and Rudolph Erickson. They had a very pleasant trip and traveled so fast that the few rain drops that fell in the afternoon never touched them.

The run this Sunday will be from Brainerd to Deerwood, thence to Ironton, Crosby and Cuyuna and return to Brainerd, taking in all the cities of the north Cuyuna range. A new member of the local motorcyclists is W. L. Bakklila, clerk at H. P. Dunn's drug store, who has recently purchased a machine from W. E. Lively, local agent for the Wagner motorcycle.

MAKES GREAT RECORD

George Trent, Jr., Breaks His Father's and Many Other Records at Gun Club Shoot

George Trent, Jr., on Sunday broke his father's as well as quite a few other records at the Riverside Gun Club shoot by breaking 55 straight at 16 yards and by hitting 94 out of a possible 100 in the last event.

This is about one of the best records made at the Riverside grounds and is also remarkable from the fact that young Mr. Trent has only been shooting two years.

During the summer months the gun club will give a tournament and it is hoped to so arrange the dates that the members may enjoy several weeks of tournament shooting in various parts of the country. The Cuyuna Gun Club is also figuring on a tournament. It is a new club and starts out with 65 members and lots of enthusiasm. The Aitkin club is also planning a tournament as well as Duluth, Wadena and other cities.

LAUNDRY CHANGES HANDS

H. B. McConnell Buys the Brainerd Steam Laundry From its Present Owner

H. B. McConnell, formerly of Little Falls and lately a resident of Brainerd, has purchased the Brainerd Steam Laundry from its original owner, W. J. Hutchins, and thus succeeds Harry B. Johnson who for some months has conducted the laundry. Mr. Johnson will not leave the institution but will remain in the employ of Mr. McConnell.

Saved Child From Death

"After our child had suffered from severe bronchial trouble for a year," wrote G. T. Richardson, of Richardson's Mills, Ala., "we feared it had consumption. It had a cough all the time. We tried many remedies without avail, and doctor's medicine seemed as useless. Finally we tried Dr. King's New Discovery, and are pleased to say that one bottle effected a complete cure, and our child is again strong and healthy." For coughs, colds, hoarseness, lagrippe, asthma, croup and sore lungs, its the most infallible remedy that's made. Price 50c and \$1.00. Trial bottle free. Guaranteed by all druggists. tfs

Notice

Brainerd Homestead No. 602 B. A. Y. will meet at their hall Wednesday evening, May 10th, at 8 P. M. All members are requested to be present, as important business will be transacted. Refreshments will be served. 29072

TO CURE A COLD IN ONE DAY
Take LAXATIVE FROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c. tfs

Proposals for Heating and Ventilating the Whittier Building

The undersigned hereby gives notice that sealed proposals for the installation of a heating and ventilating plant for the Whittier school building, including all labor and material, will be received by Louis F. Hohman, secretary board of education, until the hour of 8:00 P. M. on the 22nd day of May, 1911.

All bids must be in strict accordance with the plans and specifications, prepared by L. A. Larson, of Duluth, Minn., which may be seen at the office of Louis F. Hohman, 618 Front street, Brainerd, Minn. A certified check for \$200.00, payable to the order of L. P. Johnson must accompany each bid as a guarantee, the same to be returned to unsuccessful bidders immediately on the letting of the contract.

The party to whom the contract is awarded will be required to give a bond satisfactory to the board of education, in the sum of amount of the bid for the faithful performance of the contract. The board of education reserves the right to reject any or all bids.

Brainerd, Minn., 5-8-11.
LOUIS HOHMAN,
28913 Secretary Board of Education

MOLSTAD HEADS THE PARK BOARD

H. W. Linnemann is Chosen Vice President and S. R. Adair, Secretary at the Meeting

O. B. HAMELIN AS CARETAKER

Trees and Shrubbery Being Set Out in Gregory Park—Other Improvements Contemplated

At the recent meeting of the park board Jens Molstad was unanimously elected president. He was nominated by S. R. Adair, formerly president, who believed that the honor of being the presiding officer of the board should be passed around.

The other nominees were also unanimously elected and the officers of the board for this term are as follows: President—Jens Molstad. Vice President—H. W. Linnemann. Secretary—S. R. Adair.

O. B. Hamelin was employed as caretaker of the parks. The board talked over park plans. Gregory park, at present, is receiving the most attention, but as soon as the work is completed there, the board will take up the South Sixth park as well as Lum park. At the South Sixth street park black dirt and fertilizers are being hauled daily. At Lum park a dock is to be built and other improvements made.

A visit at Gregory park is a revelation of what can be accomplished when things are done under a systematic plan. Landscape Architect Nutter, of Minneapolis, designed the grounds and under Mr. Hamelin's guidance they are assuming beautiful shape. A team and driver are employed and two men and the caretaker are working at the park. Holes are being dug for the shrubbery and trees.

In the southwest corner of the park stand the sturdy sentinels, 15 Norway pines, all that remains of the forest which was swept out of existence by the cyclone of years ago which also upset a string of railway cars and tore out the city's street railway bridge.

620 holes are being dug for shrubbery and over 95 holes for trees. Most of the trees and shrubbery come from the L. L. May Co., of St. Paul. Among the evergreens being set out are 4 white pines, 4 Austrian pines, 8 white spruces, 4 Colorado spruces and 13 dwarf mountain pines.

Among the deciduous trees to be set out are 19 American elms, 11 blackberry, 2 Lombardy poplars, 7 green ash, 7 American lindens, 7 Norway Maple, 2 Veir's cutleaf maple, 4 canoe birch, 3 Russian golden willow, 1 mountain ash, a most varied and comprehensive assortment and one well calculated to make the park one of the beauty spots of the city.

The gold fish have been taken from the court house to the pond and are now sporting in the cement basin. The park is now a place that the city may well be proud of and one which it would delight any out of town visitor to inspect.

After all the trees and shrubbery are set out comes the work of setting the flowers, of which there will be two large beds in the center of the park and the month of June will see Gregory park as radiant and pretty as the proverbial June bride or sweet girl graduate.

Cleaning Day

I hereby designate Thursday, May 18th, as a general cleaning-up day and ask the people of Brainerd to observe the same. I urge upon you extreme care when starting rubbish fires and to extinguish them before you leave your premises. May 9th, 1911.

H. P. DUNN

Mayor.

W. R. MACKENZIE IN CITY

Energetic Secretary of Northern Minnesota Development Association on Way to Wadena

W. R. Mackenzie, the energetic and ubiquitous secretary of the Northern Minnesota Development Association, was in the city yesterday on his way to Wadena to confer with President Maxfield, of the association.

The association meets in Duluth June first and the slogan adopted is "Boost for Minnesota." Among the matters to be discussed will be state development, the development of state and federal lands, state government by commission, and other subjects of vital importance to the entire state at large.

"Our speakers," said Mr. Mackenzie, "will include the Rt. Rev. Jas. McGolrick, Bishop of Duluth, who will take as his subject, 'Settling Minnesota.'" Sen. S. D. Works will deliver an address. W. H. Mylvea, former attorney-general of Wisconsin and H. Knutson, of Foley, president of the Northern Minnesota Editorial Association will speak on important subjects. Another speaker recently secured is Prof. A. R. Whitson, of the University of Wisconsin."

"I can get better results by going after people than by waiting for them to come and see me and that's why I took a run down to see Maxfield," said Mr. Mackenzie, as he finished walking a half mile up the Northern Pacific track beyond the delayed M. & I. train to the Staples train ready to pull out.

Do Ghosts Haunt Swamps

No, never. Its foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous and lowlands. These are the malarial germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C. "and I've had fine health ever since." Use this safe, sure remedy only, 50c at all druggists. tfs

COMPLIMENTS MRS. DIAL

Fargo Courier-News Praises Mrs. Dial, Formerly Supervisor of Music in Local Schools

The Fargo Sunday Courier-News of May 7th has a three column write-up of the third district federation of women's clubs meeting at Mayville last Saturday and accords generous praise of the playing of Mrs. Frances Newman Dial at the gathering. Mrs. Dial at one time was the supervisor of music in the local schools.

The federation met in the Congregational church and a large attendance was present. The paragraph relating to the lady whose accompaniments Mrs. Dial played are as follows:

"Mrs. W. S. Stambaugh, of Fargo, quite won the appreciation of the assemblage by her presentation of three songs of her own composition. In the first of the song cycle, which she calls 'Doubt', her words and melody were arranged by Mr. Putnam, of the Agricultural college, who put into them his best interpretation. This was also true of the third of the group, 'Life,' although in this instance Mrs. Stambaugh had taken the poem by Dawson, for her theme. This last number was a gem, both in treatment and in melody, and was a credit indeed to the musical taste of both artists."

"In the second group, the 'Mother's Song', Mrs. Stambaugh's words and melody were placed in an exquisite musical setting by Mrs. Frances Newman Dial who was in all three, accompanist for Mrs. Stambaugh. Mrs. Dial's work is always characterized by great delicacy of feeling, and Mrs. Stambaugh sang these numbers in her best form, with sympathy and understanding of the child nature."

Wash Dress Goods YES The kinds with Style

Summer days are at hand. We are already experiencing some of the first warm breezes. You will find in our wash fabrics the choicest of fabrics—not a piece but that Dame Fashion has approved—and all at the reasonable prices which always characterize our store. There is a large selection too.

H. P. Michael Co.

HIGH SCHOOL NOTES

The Date of the Declamatory Contest Has Been Set for Thursday, May 11

The date of the declamatory contest has been again changed, this time to Thursday, May 11, instead of Friday, the day set for it. In order to meet the expense of sending a representative to Stanley hall, it has been thought best to charge an admission fee of ten cents and although no tickets are being sold a large audience is expected to be present. With seven girls competing for the honor of representing the high school, whose recitations embody all that natural ability, hard work and the best of instructions are able to produce we have every reason to feel only confidence in the success of the local contest. In this undertaking there is but one object, the honor of the high school, and with such an ambition, sustained by the enthusiasm of the girls club, supported by the loyalty of the school and aided by the good will of Brainerd as a whole the girls may prove their ability in one more field and add to our list of victories a triumph in elocution.

From Moxie's beaming countenance to Sickkenan's golden smile, the whole assembly room radiated joy, pleasure and happiness after the first game of the season. This victory is regarded as an encouraging omen of continual success—success which will illumine the darkest corners with smiles of peace and good will.

The next game will be played at Walker, Saturday, May 13.

The Freshmen were again elevated to the dignity of sitting in the assembly room Friday while teachers examinations were going on in room three.

Last Saturday the annual went to the publishers and in a short while the public may have a complete history of the trials and tribulations: the joys and sorrows of the past year. Embellished by the portraits of students, and teachers; filled with sense nonsense and poetry; crammed with illustrative deeds of the diamond, class room and football field, this work is the consummation of all that has been best and brightest in high school life and will forever remain a monument of glory to the fame of the class of '11.

The juniors will entertain the seniors by a picnic at Gilbert lake, Saturday, May 20. Although an entertainment has been talked of for months it is but recently that the picnic has been decided upon.

Nora King in Cicero:—"When they are silent they say nothing." The little gopher that so valiantly and alas! vainly attempted to escape some time ago, has earned immortality in the odes and ballads of numerous sympathetic admirers whose contributions to the annual were filled with praises of his marvelous exploit.

A meeting of the literary society was held last Friday afternoon. The method of election was slightly changed and an attempt which proved unsuccessful was made to secure adjournment until next year.

A few urgent wants: Wanted—Shorter hours, higher marks longer rest periods. Wanted—Two trustworthy custodians for the zoo. Wanted—Strength to resist the "Call of the Wild."

MOTORCYCLE CLUB RUN

Six Members Take a Cross Country Trip Sunday to Nokay and Long Lakes

On Sunday six members of the Brainerd Motor Cycle Club took a cross country run from Brainerd to Nokay lake and thence to Long Lake and return. In the party were Geo. Fricker, J. Fricker, Joseph Brandt, Eli Stendahl, Wm. Lee and Rudolph Erickson. They had a very pleasant trip and traveled so fast that the few rain drops that fell in the afternoon never touched them.

The run this Sunday will be from Brainerd to Deerwood, thence to Ironton, Crosby and Cuyuna and return to Brainerd, taking in all the cities of the north Cuyuna range. A new member of the local motorcyclists is W. L. Bakklia, clerk at H. P. Dunn's drug store, who has recently purchased a machine from W. E. Lively, local agent for the Wagner motorcycle.

GOOD VALUES

MAKES GREAT RECORD

George Trent, Jr., Breaks His Father's and Many Other Records at Gun Club Shoot

George Trent, Jr., on Sunday broke his father's as well as quite a few other records at the Riverside Gun Club shoot by breaking 55 straight at 16 yards and by hitting 94 out of a possible 100 in the last event.

This is about one of the best records made at the Riverside grounds and is also remarkable from the fact that young Mr. Trent has only been shooting two years.

During the summer months the gun club will give a tournament and it is hoped to so arrange the dates that the members may enjoy several weeks of tournament shooting in various parts of the country. The Cuyuna Gun Club is also figuring on a tournament. It is a new club and starts out with 65 members and lots of enthusiasm. The Aitkin club is also planning a tournament as well as Duluth, Wadena and other cities.

YOUR REGULAR JOB

of feeding the furnace won't be such a long one if you use our clean freeburning coal. For every shovelfull you put in will mean more heat than you ever got before from the same quantity of coal. Consequently you need less coal and have to do less shoveling. See the point?

JOHN LARSON

The Larger Shave.

Shaving is a much more comprehensive business with the Japanese than with us. Jukichi Inouye in his "Home Life in Tokyo" says that "Japanese barbers shave not only the lips, cheeks and chin and the borders of the hair, but they also pass their razors over the whole face, not sparing the forehead, the eyelids between the eyelashes and the eyebrows, the cheek bones, the nose and the ear lobes, and unless their victim objects they will insert a small narrow razor into his nostrils and ears and twirl it rapidly round with great dexterity."

FOR SALE

160 acres of land in section 36-45-29, 6 acres broke and ready for cultivation. Will trade for city property. For further terms and conditions of sale apply at 1223 Rosewood street. 5-5-1mdwp

COMMUNICATION

Mr. Editor:—

Kindly allow me a small space in your valuable paper to comment on an article which appeared in your paper May 6th, under the heading, "Concerning Boy Scouts." It seems to me Mr. Editor, that the author of the same, takes upon himself to criticize an organization which has always stood for uprightness in our city. He says in his article, "That it seems to me almost beyond belief at this day and date that any body of male adults should rush into print with resolutions condemning the movement without a thorough investigation." I would like to correct Mr. Hassan in this by stating that the boiler-makers have had this investigation under way for two weeks before they drew up resolutions and rushed into print and further I challenge Mr. Hassan to prove to me that he has more intelligence than the average boiler-maker in Brainerd, and if Mr. Hassan carries a union card, or, if he would have us believe that he has investigated this movement. What does he think of the clause in the Boy Scout law (Section 2) which states that a "Boy Scout must be loyal to his employers and stick to them through thick and thin, against any one who is their enemy or who even talks badly of them." I would like to have him explain that section from the standpoint of a union man. Why should our boys be asked to take an oath to stick to their employers through thick and thin, against any one who is their enemy, when at times the employers consider their employees their enemy. Say at times of industrial disputes? Did Mr. J. D. Hassan consider this? I am of the opinion he did not.

I might state here that there are many points in this movement that the boiler-makers of Brainerd would heartily endorse, but they could not endorse any organization with a law so diametrically opposed to organized labor, or could any union man who would live up to his obligation. It seems to me that if Mr. John D. has looked over the Boy Scout Manual (Page 32 Sections 2 and 7) he could not have given it an "Honest and sincere searching" investigation, or he would not "rush into print" criticizing any labor organizations.

I would like to bring to the attention of Mr. John D. Hassan that the Brainerd boiler-makers are not the only people who have objected against many of the features of the Boy Scout movement, as it is at present, and for his information, let me say, that one of the organizers of the movement, Mr. L. S. Dale, of St. Paul, stated when he was in this city a few days ago, that he had met with similar objections in other parts of the country and that a new scout manual was being compiled cutting out all the objectionable sections to the present manual, and why has this come about? Simply because there has been so many protests by intelligent people, such as the boiler-makers of Brainerd.

I would advise Mr. Hassan to look over the Boy Scout law as it stands at present in the manual and if he cannot figure out the objectionable features, to call in one of the members of local No. 116 Brotherhood of Boiler-makers to go over it with him, and it will be greatly to his advantage.

Thanking you Mr. Editor for the space occupied

Respectfully,

PETER T. BROWN,

Boiler-maker.

MUSIC AND DRAMA

At the Grand

The Grand offers a very interesting program and one which has served to draw record crowds to this popular theatre this week.

Trudell & Fuller present a program of songs and dances which captivated the audience. The pictures are very good and especially interesting to the children is the drama of the gingerbread horse, eaten up by its purchasers instead of being presented to the fair little lady.

Lime.

Lime was one of the earliest materials used to improve the soil, being mentioned by Plato and Pliny.
